- ⦿ Minimize delays by enabling the injector from either the powerhead or the control console.

Multi-phase programming

- ⦿ Save up to 40 four-phase protocols.

Auto Retract

- ⦿ Quickly remove syringes from the powerhead without waiting for rams to fully retract.

Color touchscreen

- ⦿ Easy to use with intuitive graphic screen design.

Battery-free operation

- ⦿ Eliminate time and cost associated with battery charging and replacement.

Prefilled compatible
